Product Images

Short Description

1. USB-C Male
2. Micro USB Female
3. Aluminum casing
4. Supports data transfer at USB 2.0 speeds

Description

The equip® USB Type C to Micro-USB adapter lets you charge and sync USB Type C mobile devices, such as the Samsung Galaxy S8, S8+, Nexus™ 6P, and 5X phones, using a Micro-USB cable. Simply insert the adapter's USB-C connector into your mobile device. Then, plug your Micro-USB cable into the adapter's Micro-USB port and connect the cable to the USB-A port on your computer or USB-A wall charger. The compact adapter is portable enough for carrying as a tablet accessory and it Reduces the number of cables that you need to carry around with you in order to charge all of your mobile devices.
